# Detailed Scientific Programme

### **MONDAY 3RD OCTOBER 2022**

TIME	SESSION NAME	ROOM
08:00-18:00	Registration Open	
08:00-18:00	Exhibition and Poster Set Up	
10:00-13:00	Pre-Conference Workshop 1.1  Finding, critically appraising, and using a core outcome set (COS) for your trial  Paula Williamson, University of Liverpool  Declan Devane, University of Liverpool  Karen Matvienko-Sikar, University of Liverpool  Sarah and Nicola Gorst and Harman, University of Liverpool	Queens Suite 1
	Pre-Conference Workshop 1.2 Introduction to optimisation experiments for complex interventions within the Multiphase Optimisation Strategy (MOST) framework  Samuel Smith, University of Leeds  Michelle Collinson, University of Leeds  Rebecca Walwyn, University of Leeds	Queens Suite 2
	Pre-Conference Workshop 1.3 Using the PeRSEVERE guiding principles to prepare for and manage participation changes in clinical trials	Queens Suite 3
	William Cragg, University of Leeds Katie Gillies, University of Aberdeen Lauren Moreau, University of Leeds Puvan Tharmanathan, University of York	
	Pre-Conference Workshop 1.4 Implementing CDISC's SDTM retrospectively for data sharing Sharon Kean, University of Liverpool Jonathan Gibb, University of Liverpool Vicky Watson, University of Liverpool Carrol Gamble, University of Liverpool	Queens Suite 4
	Pre-Conference Workshop 1.5 Estimands in randomised trials: practical guidance to help get the right answer to the right question  Brennan Kahan, University College London Suzie Cro, Imperial College London James Carpenter, University College London	Queens Suite 5

TIME	SESSION NAME	ROOM
13:00-14:00	Lunch Break (lunch not provided)	
14:00-17:00	Pre-Conference Workshop 2.1  How Routine Healthcare Data can enhance data-enabled clinical trials – what is available and what to consider before you apply	Queens Suite 1
	Macey Murray, University College London Suzanne Hartley, NHS Digital Matt Sydes, University College London Andy Rees, NHS Digital Louise Dunn, NHS Digital	
	Pre-Conference Workshop 2.2 Clinical Trial Monitoring	Queens Suite 2
	Sharon Love, University College London Victoria Yorke-Edwards, University College London Lisa Fox, ICR-CTSU	
	Pre-Conference Workshop 2.3 Planning & Delivering Effective and Engaging Training to Clinical Trial Staff	Queens Suite 3
	Sara T Brookes, University of Birmingham Razia Meer-Baloch, University of Birmingham	
	Pre-Conference Workshop 2.4 Good practice in planning, conducting and reporting pilot trials	Queens Suite 4
	Sandra Eldridge, Queen Mary University of London Christine Bond, University of Aberdeen Mike Campbell, University of Sheffield Sally Hopewell, University of Oxford Gill Lancaster, Keele University Lehana Thabane, McMaster University Saskia Eddy, Queen Mary University of London Katie Mellor, University of Oxford	

TIME	SESSION NAME	ROOM
08:00	Registration and Speaker Preview Opens	
08:45-09:00	Welcome and Opening Matt Sydes, UCL Katie Gillies, University of Aberdeen Eleanor Mitchell, University of Nottingham Paula Williamson, University of Liverpool	Auditorium
09:00-10:20	Parallel Session 1A – Bayesian Approaches for Trials Chair: Deborah Stocken, University of Leeds	Auditorium
	PS1A-01 A Bayesian Power Prior Approach for Incorporating Pilot Data into Cluster Randomised Controlled Trial Design: A hypothetical redesign and simulation study Benjamin Gary Jones, University of Exeter	
	PS1A-02 Sample size determination in basket trials: a Bayesian approach for borrowing of information Haiyan Zheng, University of Cambridge	
	PS1A-03 Bayesian Adaptive Clinical Trial Design using Integrated Nested Laplace Approximations Anna Heath, The Hospital for Sick Children	
	PS1A-04 A Bayesian method for safety signal detection in ongoing blinded randomised controlled trials Kristian Brock, UCB	
	PS1A-05 Bayesian modelling strategies for borrowing of information in randomised basket trials Luke Ouma, Newcastle University	
	Parallel Session 1B – Trial Conduct Lessons Chair: Suzanne Hartley, NHS Digital	Queens Suite 1
	PS1B-01 Use of SWAT methodology to investigate intervention implementation processes – Case studies of two trials Sadia Ahmed, Clinical Trials Research Unit, Leeds Institute of Clinical Trials Research, University of Leeds	

TIME	SESSION NAME	ROOM
	PS1B-02 Using a simultaneous SWAT design to increase the recruitment and retention evidence base: two case studies Elizabeth Coleman, York Trials Unit - University of York	
	PS1B-03 Improving follow-up and retention to paediatric randomized controlled trials: a qualitative study Daisy Mary Gaunt, Population Health Sciences, Bristol Medical School, University of Bristol	
	PS1B-04 Effects on retention of different weight assessment approaches during trials of Behavioural Weight Management Interventions (BWMI). Nested Study within a Trial (SWAT) Claire E Torrens, University of Stirling	
	PS1B-05 Optimising the Notification Policy to Improve Engagement with an Alcohol Reduction App: Results from a Micro-Randomised Trial Lauren Bell, London School of Hygiene & Tropical Medicine	
	Parallel Session 1C – Challenges to Improving Accrual Chair: Angela Meade, University College London	Queens Suite 2
	PS1C-01 Behavioural Optimisation & Operational Strategies for Trials: The BOOST Approach Katie Gillies, University of Aberdeen	
	PS1C-02 Screening Log Guidelines (SLoG): A standardised model for screening data: who should be included and which data should be collected? Susan Stirling, Juliet High, Norwich Clinical Trials Unit, University of East Anglia	
	PS1C-03 The development of guidance for the use of eConsent by UKCRC Registered Clinical Trials Units Duncan Appelbe, The University of Oxford	
	PS1C-04 Inviting people to a clinical trial - how do we challenge the default decline response?  Dr Shyma Jundi, NHS Digital	
	PS1C-05 Optimization of the run-in stage in randomized clinical trials: an ensemble machine learning approach Giulia Lorenzoni, University of Padova	

TIME	SESSION NAME	ROOM
	Parallel Session 1D – Lightning Talk Session Chair: Matt Sydes, UCL	Kings Suite
	PS1D-LT02 Current statistical issues in platform trials for the evaluation of multiple treatments Franz König, Martin Posch	
	PS1D-LT03  Handling delayed toxicities in real-world oncology dose-finding trials: comparison of Continual Reassessment Method (CRM) and time-to-event CRM (TITE-CRM)  Ms Zhulin Yin, Institute of Cancer Research	
	PS1D-LT04 Updating existing core outcome sets to include LMiC participants: a meta core outcome set for stillbirth  Jamie Kirkham, The University of Manchester	
	PS1D-LT05  The key elements of the core outcome set (COS) and the application of master protocol in the development of COS  Ruijin Qiu, Hongcai Shang, Dongzhimen Hospital, Beijing University of Chinese Medicine	
	PS1D-LT07 Challenges of implementing and running a study within a trial (SWAT) across multiple host trials – the SPRUCE study  Morgaine Stiles	
	PS1D-LT08 A systematic review of the application of randomisation methodology in RCTs and association with study characteristics Cydney Louise Bruce, University Of Nottingham	
	PS1D-LT09 A practical approach to addressing barriers to trial participation for LGBTQIA+ people: progress of initiative by the NHMRC Clinical Trials Centre, The University of Sydney  Karen Bracken, The University Of Sydney	
	PS1D-LT10 RCT vs registry based observational studies in evaluating outcomes in spinal interventions Lukas Staudt, University Of Liverpool	
	PS1D-LT11 The cost-effectiveness of improving patient recruitment in RCTs: a case-study of dexamethasone from the RECOVERY trial Athanasios Gkekas, University Of York	

TIME	SESSION NAME	ROOM
	PS1D-LT12 A comparison of methods for estimating dichotomous treatment effects: a simulation study Jacqueline Thompson, University Of Birmingham	
	PS1D-LT13 Identification of causal mediation effects with non-adherence and missing data Anca Maria Chis Ster, King's College London	
	PS1D-LT14 Ascertaining patient and clinician views on the severity of post-operative complications after cardiac surgery: design, conduct and analysis of a survey.  Rachel Maishman, University Of Bristol	
	PS1D-LT15 Enhancing the transparency and reporting of randomised trials: update of the SPIRIT 2013 and CONSORT 2010 Statements Sally Hopewell, University of Oxford	
	PS1D-LT16 Review of reporting of time to event analyses and the proportional hazards assumption in Randomised Controlled Trials Ashma Krishan, University Of Manchester	
	PS1D-LT17 Public Perceptions of Clinical Research Rachel Evans	
	PS1D-LT18 Inclusion of stakeholders from low- and middle-income countries in core outcome set development and use  Jamlick Karumbi, University Of Liverpool	
	PS1D-LT19 Applying the Estimand Framework to the microbiological outcome Mandy Lau, Cardiff University	
	PS1D-LT20 Survey findings of the UK researchers about the challenges and barriers to blinding in complex intervention randomised controlled trials (RCTs)  Abdullah Yonis, University Of Exeter	
	PS1D-LT21 AlcoChange: Lessons for Stepped Wedge Trials after the Pandemic Andrew Cook, University Of Southampton	
	PS1D-LT22 How COVID-19 policy changes during the Com-COV3 trial in adolescents impacted trial design and results Melanie Greenland, University Of Oxford	

TIME	SESSION NAME	ROOM
	PS1D-LT23 Conducting clinical trials during the COVID-19 pandemic: experiences from a dengue trial in Ho Chi Minh City, Vietnam Nguyet Minh Nguyen	
	PS1D-LT24 Delivering COVID-19 Vaccine Trials at Speed: The ComFluCOV Experience Sarah Baos, University of Bristol	
	PS1D-LT25 On registry-based randomized trials: Results and Lessons from the pan-Canadian AcT trial in acute ischemic stroke Tolu Sajobi, University Of Calgary	
10:20-11:05	Refreshment Break, Exhibition & Poster Viewing	Studio One
11:05-12:25	Parallel Session 2A – Healthcare Systems Data & Trials I Chair: Catrin Plumpton, Bangor University	Auditorium
	PS2A-01 Priority setting the opportunities for routinely collected data and trials: COMORANT-UK Michael Robling, Centre for Trials Research, Cardiff University	
	PS2A-02 Demonstrating the data integrity of routinely collected healthcare systems data for clinical trials Macey Murray, University College London	
	PS2A-03 Big drug data for big drug trials – validation and data-driven implementation of routinely-collected, nationwide English prescribing and dispensing datasets in the RECOVERY trial Guilherme Pessoa-Amorim, University Of Oxford	
	PS2A-04 Lack of standardised recording of inflammatory bowel disease outcomes in electronic health records in the UK: mind the data gap between clinical trials and practice Violeta Razanskaite, University Of Liverpool	
	PS2A-05 A more efficient approach to randomised controlled trials in primary care using routinely collected practice-level data Athene Lane, University of Bristol	

TIME	SESSION NAME	ROOM
	Parallel Session 2B – Improving Inclusivity Chair: Andrew Cook, University of Southampton	Queens Suite 1
	PS2B-01 Shining a light into the 'black box of horrendousness': a qualitative study exploring barriers and facilitators to conducting trials involving adults lacking capacity to consent Victoria Shepherd, Cardiff University	
	PS2B-02 Beyond "must speak English": Systematic review of language-related eligibility criteria in patient recruitment to trials Talia Isaacs, University College London	
	PS2B-03 Increasing diversity and inclusion in clinical trials with underserved populations at risk for hepatitis C in Ho Chi Minh City, Viet Nam Jennifer Ilo Van Nuil, Oxford University Clinical Research Unit	
	PS2B-04 Comparing trial communication between patients from the most and least socio-economically disadvantaged backgrounds: qualitative findings from three studies embedded in cancer-related trials  Mariana Popa	
	PS2B-05 How can we effectively engage diverse communities into clinical research? Platform Randomised Trial of Treatments in the Community for Epidemic and Pandemic Illnesses (PRINCIPLE Trial) Mahendra G Patel, University Of Oxford	
	Parallel Session 2C – Improving Technology for Trials Chair: Kerry Avery, University of Bristol	Queens Suite 2
	PS2C-02 Evaluating the effect of regular symptom monitoring on trial outcomes: using electronic patient-reported outcome measures in an online eczema randomised controlled trial  Arabella Baker, University Of Nottingham	
	PS2C-03 Using two-way text messaging to collect daily pain outcome data in participants with Hidradenitis Suppurativa Helen Stanton, Cardiff University	
	PS2C-04 Development of a risk-based validation framework for central monitoring and statistical analysis scripts Moniek Nelleke Bresser, Swiss Tropical And Public Health Institute	

TIME	SESSION NAME	ROOM
	PS2C-05 Textnums: A tool to streamline the use of analysis results in manuscripts Rosanna Cretney, University Of Oxford	
	Parallel Session 2D – Conduct & Analysis Lessons Chair: Katie Gillies, University of Aberdeen	Kings Suite
	PS2D-01 Investigating SMART analysis methods in late phase Myeloma trials: a simulation study  Jake Emmerson, University Of Leeds	
	PS2D-02 The UK Myeloma Research Alliance OPTIMUM trial: a synthetically-controlled phase II trial in a rare sub-population Andrew Hall, Sarah Brown, University Of Leeds	
	PS2D-03 Overcoming the Challenges of Delivering a National Randomised Controlled Trial in Organ Donation Amy Evans, NHSBT	
	PS2D-04 Will (When to Induce Labour To Limit Risk in Pregnancy Hypertension) – A Multicentre Randomised Controlled Trial; Adaptations to Deliver a Trial During a Pandemic Katie Kirkham, University Of Birmingham	
	PS2D-05 Integrating photovoice into a process evaluation: the case of the NightLife study Victoria Cluley, University Of Leicester	
12:25-13:45	Lunch Break, Exhibition & Poster Viewing	Studio One
13:45-14:45	Keynote Speaker - Clinical trials in pandemics: Challenges & Successes Salim S. Abdool Karim	Auditorium
14:45-15:15	Refreshment Break, Exhibition & Poster Viewing	Studio One
15:15-16:35	Parallel Session 3A – Co-Producing Research I Chair: Frances Shiely, University College Cork Co-chair: Jim Elliott, Patient Partner, Pembrokeshire, UK	Auditorium
	PS3A-01 Co-designing an adaptive clinical trials platform to slow the progression of multiple sclerosis Jenny Robertson, Annee Amjad, University Of Edinburgh	

TIME	SESSION NAME	ROOM
	PS3A-02 Co-producing an RCT with autistic adults: lessons on trial design and conduct for engaging perceived hard-to-reach populations Alba Realpe, University of Bristol	
	PS3A-03 PPIE at the heart of the design of the NHS DigiTrials service Susannah Strong, Heather Pinches, Leigh Mytton, NHS Digital	
	PS3A-04 Co-produced resources to support patient and public involvement in developing core outcome sets – an e-toolkit and animation Heather Barrington, University of Liverpool (COMET Initative)	
	Parallel Session 3B – Monitoring and Data Quality Chair: Evelyne Kestelyn, Oxford University	Queens Suite 1
	PS3B-01 What is the purpose of clinical trial monitoring? Sharon Love, MRC Clinical Trials Unit at UCL	
	PS3B-02 Artificial Intelligence in Trial Monitoring: Using Machine Learning to identify poor performance sites in clinical trials Louise Coutts, Alan Turing Institute	
	PS3B-03 THE COMPLIANCE PLOT: A novel bespoke approach to monitor and examine protocol-adherence in clinical trials Hatem Wafa, King's College London	
	PS3B-04 The power of visualising harm in randomised controlled trials Victoria Cornelius, Imperial College London	
	PS3B-05 Recommendations for visualising harms in randomised controlled trial publications: a consensus Rachel Phillips, Queen Mary University London	
	Parallel Session 3C – Adaptive Designs Chair: Lehana Thabane, St Joseph's Healthcare	Queens Suite 2
	PS3C-01 An enrichment trial design using joint modelling of longitudinal and timeto-event data Abigail Burdon, University Of Cambridge	

TIME	SESSION NAME	ROOM
	PS3C-02 Combining factorial and MAMS platform designs to evaluate multiple interventions efficiently lan R White, UCL	
	PS3C-03 Implementing the Bayesian Optimal Phase 2 design (BOP2) in a potentially practice-changing umbrella-basket platform trial for rare cancers: the DETERMINE trial Lucinda Billingham, Cancer Research UK Clinical Trials Unit, University of Birmingham	
	PS3C-04 An evaluation of the impact of outcome delay on multi stage trials Aritra Mukherjee, James M. S. Wason, Michael Grayling, Newcastle University	
	PS3C-05 A Practical Adaptive Designs Toolkit: Making adaptive designs more accessible Munya Dimairo, University Of Sheffield	
	Parallel Session 3D - Spotlight Session Update and Future Directions in Surgical Trials Methodology, Royal College of Surgeons of England Surgical Trials Centre (STC) Chair: Deborah Stocken, University of Leeds Peter Hutchinson Jane Blazeby David Beard Marion Campbell Joy Adamson	Kings Suite

## WEDNESDAY 5TH OCTOBER 2022

TIME	SESSION NAME	ROOM
08:00	Registration and Speaker Preview Opens	
08:30-09:50	Parallel Session 4A – Improving Recruitment Chair: Kerry Avery, University of Bristol	Auditorium
	PS4A-01 Using social media as recruitment tool in a dermatology clinical trial Susanne Renz, Jaqueline Nuttall, University Of Southampton	
	PS4A-02 Training trial Recruiters: An educational INtervention (TRAIN) for recruiters to neonatal trials Valerie Smith, Trinity College Dublin	
	PS4A-03 Effectiveness of a simple recruitment animation for increasing rates of recruitment and retention of ethnic minority participants in a large multicentre stroke trial: A SWAT Nikola Sprigg	
	PS4A-04 Questioning approaches to consent in time critical obstetric trials: insight from a mixed methods study within a trial Kerry Woolfall, University Of Liverpool	
	PS4A-05 'A whole greater than the sum of its parts': synergies and outputs of a trials' conduct working group focused on Complex and Alternate Consent pathways.  Julia Wade, Amy M Russell, University Of Bristol	
	Parallel Session 4B – Collecting Evidence, Protecting Equipoise Chair: Catrin Plumpton, Bangor University	Queens Suite 1
	PS4B-01 A good use of time? Providing evidence for how effort is invested in primary and secondary outcome data collection in trials Heidi Gardner, University Of Aberdeen	
	PS4B-02 Blinding Of Trial Statisticians: Developing guidance for a risk-proportionate approach to blinding statisticians within clinical trials Christopher Partlett, University Of Nottingham	
	PS4B-03 Potential for bias due to unblinded outcome assessment in multi-arm multi-stage (MAMS) clinical trials Jennifer Nicholas, London School Of Hygiene & Tropical Medicine	

TIME	SESSION NAME	ROOM
	PS4B-04 Total or Control Events: Choosing Approach for Timing of Trial Analyses Babak Choodari-oskooei, UCL	
	PS4B-05 Loss of equipoise: tackling the challenge in the Perfused Liver Utilisation Study Helen Thomas, NHS Blood and Transplant CTU	
	Parallel Session 4C – Issues in Outcome Measures Chair: Evelyne Kestelyn, Oxford University	Queens Suite 2
	PS4C-01 Trial designs with co-primary superiority and non-inferiority endpoints: methodological discussion points and practical guidance Philip Pallmann, Cardiff University	
	PS4C-02 Definitions, limitations, acceptability, guidance in use and reporting of surrogate endpoints in randomised controlled trials: A scoping review to support development of SPIRIT/CONSORT-SURROGATE Anthony Muchai Manyara, University Of Glasgow	
	PS4C-03 Surrogate endpoints in regulatory use: how many are actually statistically valid? Wang Pok Lo, Usher Institute, University of Edinburgh	
	PS4C-04 The Win Ratio: A developing approach for analysing composite outcome measures in randomised controlled trials Tim Clayton, London School Of Hygiene & Tropical Medicine	
	PS4C-05 Comparison of win ratio, win odds and win difference for dealing with composite outcomes Duolao Wang, Dr Gaohong Dong, Liverpool School of Tropical Medicine	
	Parallel Session 4D – Complex Data Collection Chair: Kirsteen Goodman, Glasgow Caledonian University	Kings Suite
	PS4D-01 RACER-Knee and RACER-Hip: challenges of conducting randomised controlled trials of novel robotic interventions in the orthopaedic setting James Griffin, University Of Warwick	
	PS4D-02  New frontiers in surgical site infection (SSI) assessment: developing reliable, valid and efficient electronic patient-reported methods for remote and blinded trial outcome assessment and follow-up Rhiannon Macefield, University of Bristol	

TIME	SESSION NAME	ROOM
	PS4D-03 Understanding quality assurance and protocol adherence in surgical trials: the power of digital imaging Natalie Blencowe, University of Bristol	
	PS4D-04 Interpreting chaos: a priori account of expected variation in treatment compliance and fidelity David Beard, University Of Oxford	
	PS4D-05 Measuring effectiveness in randomized controlled trials of complex interventions: examples from de-implementation research Aleksi Raudasoja, Finnish Medical Society Duodecim	
09:50-10:20	Refreshment Break, Exhibition & Poster Viewing	Studio One
10:20-11:40	Parallel Session 5A – Communications I Chair: Frances Shiely, University College Cork Co-chair: Richard Stephens, Patient Partner	Auditorium
	PS5A-01 What influences participant satisfaction with how trial results are shared with them? Patient and site staff views from the Show RESPECT study Annabelle South, UCL	
	PS5A-02 Integrated Participant Digital Storytelling (IPDS): an innovative method for disseminating complex participant stories Clare Clement, University Of Bristol	
	PS5A-03 Use of the h-index and Scientific Quality Index to measure the quality of the output of health services researchers  Danielle Podmore, University of York	
	PS5A-04 Reminding peer reviewers of the most important reporting guideline items to improve completeness in published articles: Primary results of two randomized controlled trials Sally Hopewell	
	PS5A-05 Publication bias - a cross-sectional study of randomised trials in Subsaharan Africa: ongoing challenges of research waste Ameer Steven-jorg Hohlfeld, South African Medical Research Council	
	<b>Parallel Session 5B – Analysis I</b> Chair: Paula Williamson, University of Liverpool	Queens Suite 1
	PS5B-01 Exploring Treatment Effect Heterogeneity and novel methods to obtain data driven subgroups: application to critical care randomised controlled trials Eleanor Van Vogt, Imperial College London	

TIME	SESSION NAME	ROOM
	PS5B-02 Estimating marginal treatment effects in multi-centre trials: design and analysis considerations.  Mollie Jessica Payne, King's College London	
	PS5B-03 Subgroup analyses for continuous variables: A review of methods in randomised controlled trials S. Faye Williamson, Newcastle University	
	PS5B-04 Performance of interim analyses in a two-by-two factorial design with a time-to-event outcome: a simulation study of the VAPOR-C trial Anurika Priyanjali De Silva, The University Of Melbourne	
	PS5B-05  Health economic analyses following an adaptive design: a simulation study in the group sequential design setting  Laura Flight, University of Sheffield	
	Parallel Session 5C - Platform Protocol Lessons Chair: Matt Sydes, UCL	Queens Suite 2
	PS5C-01 Characteristics, progression, and output of randomized platform trials – a systematic survey Alexandra Griessbach, University Hospital Basel	
	PS5C-02 Deciding whether a multi-arm trial should adjust for multiple comparisons Richard Parker, University Of Edinburgh	
	PS5C-03 Consequences of population drift over time in large scale platform trials: lessons from the COVID-19 Pandemic Geraldine Murden, University of Leeds	
	PS5C-04  Designing devolved international databases in a UK-run international randomised trial platform in colorectal cancer (The F0xTROT Platform)  Loretta Davies, University Of Oxford	
	PS5C-05 Implementation of an Australian-wide master cancer protocol – an operational analysis of the Molecular Screening and Therapeutics program Lucille Sebastian, University Of Sydney	
	Parallel Session 5D – Predicting Accrual Chair: Kerry Woolfall, University of Liverpool	Kings Suite
	PS5D-01  Back to the Future: using past recruitment data to predict future performance: retrospective analysis of a 10-year CTU portfolio Eleanor J Mitchell, University of Nottingham	

TIME	SESSION NAME	ROOM
	PS5D-02 Predicting participation in clinical trials to inform design choices Nick Bansback, University of British Columbia	
	PS5D-03 Recruitment patterns and prediction in randomized clinical trials – a meta-research study Ala Taji Heravi, meta-research center	
	PS5D-04 Predicting the impact of study design on participation rates: StudyGage – a simulation tool using patient choice data. Kevin Marsh, Evidera	
	PS5D-05 Group sequential designs in trauma and orthopaedics clinical trials: feasibility and assessment of utility using data from some recent RCTs Nick Parsons, University Of Warwick	
11:40-11:50	Room change	
11:50-12:50	Keynote Speaker: Doug Altman Memorial Lecture – Widening the impact of methodology research and good practice through guidelines Professor Isabelle Boutron	Auditorium
12:50-14:00	Lunch Break, Exhibition & Poster Viewing	Studio One
14:00-15:20	Parallel Session 6A – Missing Data Chair: Michael Grayling, Newcastle University	Auditorium
	PS6A-01 Sensitivity of results to missing data for clinical trials with discrete, longitudinal outcome measurements Isabelle Smith, University Of Leeds	
	PS6A-02 Targeting the right population in trials with outcomes missing-at-random given covariates Tim P. Morris, MRC Clinical Trials Unit at UCL	
	PS6A-03 How much is that data in the window? A comparison of strategies for analysing data recorded outside pre-specified visit windows in randomised controlled trials  Nick Beckley-Hoelscher, King's College London	
	PS6A-04 An extended 'tipping point' approach for missing data in binary outcomes when estimating relative risk in clinical trials Catherine Moakes, University Of Birmingham	

TIME	SESSION NAME	ROOM
	PS6A-05 Treatment group outcome variance difference after dropout as an indicator of missing-not-at-random bias in randomized controlled trials Audinga-Dea Hazewinkel, University Of Bristol	
	Parallel Session 6B – Reducing Trial Waste Chair: Eleanor Mitchell, University of Nottingham	Queens Suite 1
	PS6B-01 Quantifying the carbon footprint of current clinical trials: Development and prototype testing of a method to inform future lower carbon clinical trial design  Jessica Griffiths, Institute Of Cancer Research	
	PS6B-02 Moving towards sustainable clinical research Sinead Holden, Maeve Kalusche, University College Dublin	
	PS6B-03 Reducing the carbon footprint of the NightLife study Niamh Quann, University Of Leicester	
	PS6B-04 Late-phase academic-led trials for potential regulatory use: Lessons and recommendations from one trials unit's experience Victoria Yorke-Edwards, University College London	
	PS6B-05 Tolerating bad trials: the continuing scandal Shaun Treweek, University Of Aberdeen	
	Parallel Session 6C – Challenges in Improving Trials Chair: Valerie Smith, Trinity College Dublin	Queens Suite 2
	PS6C-01 How should I justify the sample size for my pilot trial? A methodological systematic review of sample size guidance for external randomised controlled pilot trials Saskia Eddy, Queen Mary University Of London	
	PS6C-02 Recommendations for using progression criteria in external randomised pilot trials to determine feasibility Katie Mellor, University Of Oxford	
	PS6C-03 Completion of PROMS – Electronic versus paper versus a Pandemic Kirsteen Goodman, Glasgow Caledonian University	
	PS6C-04  "Have you tried turning it off, and back on again?": Running trials involving digital home monitoring technologies – lessons from the I-TRAC feasibility Study Carrie Stewart, University of Aberdeen	

TIME	SESSION NAME	ROOM
	PS6C-05 A process evaluation and data triangulation of the Awareness and Beliefs About Cancer 3 trial Yvonne Moriarty, Cardiff University	
	Parallel Session 6D: Spotlight Session Chair: Julia Brown, University of Leeds	Kings Suite
	UKCRC CTU Network Kerry Hood	
15:20-15:50	Refreshment Break, Exhibition & Poster Viewing	Studio One
15:50-16:50	Parallel Session 7A – Estimands Chair: Angela Meade, University College London	Auditorium
	PS7A-01 Using estimands to inform trial choices: upending conventional wisdoms Brennan Kahan, UCL	
	PS7A-02 Accounting for use of rescue medication in mental health trials: application of the estimand framework for intercurrent events Jennifer Hellier, Institute of Psychiatry, Psychology And Neuroscience, King's College London	
	PS7A-03 Choosing estimands in hospice/palliative care clinical trials Sabine Braat, University Of Melbourne	
	PS7A-04 Accounting for differential uptake of treatment-as-usual in open-label RCTs: a comparison of methods and illustration in mental health trials  Danielle Edwards, King's College London	
	Parallel Session 7B – Core Outcome Set Methodology I Chair: Katie Gillies, University of Aberdeen	Queens Suite 1
	PS7B-01 A survey of knowledge, perceptions and use of core outcome sets among clinical trialists Karen Matvienko-Sikar, University College Cork	
	PS7B-02 Improving uptake of core outcome sets in clinical trials and systematic reviews Paula Williamson, University Of Liverpool	
	PS7B-03 Multi-Round vs Real-Time Delphi for achieving consensus in core outcome set development: a randomised trial Fiona Quirke, National University Of Ireland, Galway	

TIME	SESSION NAME	ROOM
	PS7B-04 Core outcome sets: Bridging the gap between research and routine care Anna Kearney, University Of Liverpool	
	Parallel Session 7C - Statistical Issues	Queens Suite 2
	PS7C-01 Optimising First in Human trials via dynamic programming Dr Elizabeth Pitt, UCB	
	PS7C-02 A road map for designing phase I clinical trials of radiotherapy-novel agent combinations Professor Sarah Brown, University Of Leeds	
	PS7C-03 Working under short timescales to deliver a national trial: a case study of the ComFluCOV trial from a statistician's perspective Ms Rosie A. Harris, Mr Russell Thirard Bristol Trials Centre, University of Bristol	
	PS7C-04 Achieving consistency of results across statistical software packages for models with a random effect – why are our results not always replicable?  Dr Jon Bishop, University Of Birmingham	
	Parallel Session 7D - Data & Participants	Queens Suite 3
	PS7D-01 How effective and acceptable is digital, multimedia information when recruiting children and young people to trials?  Dr Peter Knapp, University of York	
	PS7D-02 Randomised study within a trial (SWAT) of an enhanced patient information leaflet for recruitment of participants into a clinical trial of breast cancer treatment  Miss Shabina Sadiq, University Of Nottingham	
	PS7D-03 A SWAT to determine the impact of data collection frequency on participant retention in a trial with decentralised follow up: The HEAL COVID Trial  Professor Carrol Gamble, University Of Liverpool	
	PS7D-04  Developing principles for a more comprehensive, modernised approach to managing clinical trial participation changes through the UKCRC Registered CTU Network's PeRSEVERE project  Mr William Cragg, Clinical Trials Research Unit	
19:30-00:00	Conference Dinner	Royal Hall

## THURSDAY 6TH OCTOBER 2022

TIME	SESSION NAME	ROOM
08:00	Registration and Speaker Preview Opens	
08:30-09:50	Parallel Session 8A - Trial Data & Beyond Chair: Michael Grayling, Newcastle University	Auditorium
	PS8A-01 What are the re-identification risk scores of publicly available anonymised clinical trial datasets? Aryelly Rodriguez, The University Of Edinburgh	
	PS8A-02 Developing a prototype tool to aid mapping trial data to CDISC standards for Data Sharing Jonathan Gibb, Liverpool Clinical Trials Centre, University Of Liverpool	
	PS8A-03 Generating High-Utility Synthetic Clinical Trial Data Using Non-Parametric Data-Augmented Multiple Imputation Linke Li, University of Toronto	
	PS8A-04 The End of Clinical Trials As We Know Them? The Role of In Silico Modelling in Surgical Trials Deborah Stocken, University of Leeds	
	PS8A-05 Developing and evaluating a tool for detecting problematic RCTs in health systematic reviews Jack Wilkinson, University Of Manchester	
	Parallel Session 8B - Co-Producing Research II Chair: Amanda Roberts, Patient Partner, Nottingham, UK Co-chair: Kirsteen Goodman, Glasgow Caledonian University	Queens Suite 1
	PS8B-01 Perceptions of need and the decision to participate: a qualitative investigation of the experiences and perspectives of patients asked to take part in 3 RCTs Nicola Farrar, University Of Bristol	
	PS8B-02 Moving from collaboration to co-production: exploring public and patient involvement in a methodology priority setting partnership Nikita N Burke, Jim Elliot, Andrew Worrall, Evidence Synthesis Ireland	
	PS8B-03 Patient and public involvement prior to trial initiation: lessons learnt for rapid partnership in the COVID-19 era Zahra Jamal, London School of Hygiene & Tropical Medicine	

TIME	SESSION NAME	ROOM
	PS8B-04 Patient and public involvement in numerical aspects of trials (PoINT): exploring patient and public partners' experiences and identifying stakeholder priorities  Beatriz Goulão, University Of Aberdeen	
	PS8B-05 Would you be happy to be contacted about research? Sarah A Lawton, Keele University	
	Parallel Session 8C - Healthcare Systems Data & Trials II Chair: Andrew Cook, University of Southampton	Queens Suite 2
	PS8C-01 Agreement and completeness of routine versus trial-specific patient outcome data: a systematic review Saiam Ahmed, University College London	
	PS8C-02 Leveraging Real-World Data for Time-to-Event Endpoints in Clinical Trials Barbara Torlinska, University Of Birmingham	
	PS8C-03  Development of routine data based heart failure outcome ascertainment methods and application to the ASCEND trial  Michelle Abhayawardena Goonasekera, University of Oxford	
	PS8C-04 Can we use routinely collected data for trial outcomes? Benefits, challenges and recommendations- a case study using the ISCOMAT cluster randomised trial among heart-failure patients  Ellen Mason, University Of Leeds	
	PS8C-05 Use of routine healthcare data in randomised implementation trials: a methodological systematic review Charis Xuan Xie, Queen Mary University Of London	
	Parallel Session 8D: Spotlight Session Chair: Tom Conway, NUI Galway	Kings Suite
	HRB TMRN, Public communication about randomised trials Sandra Galvin, HRB-TMRN Ireland Sinead Hynes, University of Galway Declan Devane, NUI Galway Simone Lepage, NUI Galway	
09:50-09:55	Room change	

TIME	SESSION NAME	ROOM
09:55-10:55	Parallel Session 9A - Analysis II Chair: Munya Dimairo, University of Sheffield	Auditorium
	PS9A-01 An innovative design tool for clinical trials with continuous monitoring of efficacy outcomes in rare diseases: efficacy transition pathways  Laura Kirton, University Of Birmingham	
	PS9A-02 Visualising the impact of continuous covariates on time-to-event outcomes, an approach using weighted kernel estimators Richard Jackson, University Of Liverpool	
	PS9A-03 Point estimation in exact two-stage group-sequential two-arm trial designs for binary outcome data Michael Grayling, Janssen	
	Parallel Session 9B - Core Outcome Set Methodology II Chair: Valerie Smith, Trinity College Dublin	Queens Suite 1
	PS9B-01 Developing a core outcome set for hand fractures and joint injuries in adults Sandeep Rajiv Deshmukh, University Of Nottingham	
	PS9B-02 Development of a core outcome set with measurement instruments for research and clinical practice for Post COVID-19 condition (Long COVID) Sarah Gorst, University Of Liverpool	
	PS9B-03 Ethical considerations for the inclusion of patient-reported outcomes in clinical research: The PRO ethics guidelines Samantha Cruz Rivera, University Of Birmingham	
	PS9B-04 Development of core outcome sets for clinical trials of organisational and service level interventions: the RoboCOS study Marion Campbell, University Of Aberdeen	
	Parallel Session 9C - Further Challenges Chair: Kerry Woolfall, University of Liverpool	Queens Suite 2
	PS9C-01 A hybrid approach to comparing parallel-group and stepped-wedge cluster randomized trials with a continuous primary outcome when there is uncertainty in the intra-cluster correlation.  Samuel Sarkodie, Newcastle University	
	PS9C-02 The non-inferiority complex - a review and assessment of UK publicly funded non-inferiority trials Nikki Totton, University Of Sheffield	
	PS9C-03 The Trials Communication Wheel: stakeholders to consider in the lifecycle of the trial Frances Shiely, University College Cork	

TIME	SESSION NAME	ROOM
	PS9C-04 Designs for parallel-group cluster-randomised trials, where the clusters are institutions: a classification system to aid identification, with six proposed sub-types Laura E. Marsden, University Of Leeds  Parallel Session 9D - Lessons from the Pandemic Chair: Matt Sydes, UCL	Kings Suite
	PS9D-01 Learning from COVID-19 related trial adaptations to inform efficient trial design - a sequential mixed methods study Robin Chatters, The University Of Sheffield	
	PS9D-02 Covid-19 experiences in Vietnam, Indonesia and Nepal translated into evidence based, consolidated learning in clinical research Huong Thi Thanh Dau, Mutia Rahardjani, Samita Rijal, Oxford University Clinical Trial Unit, Ho Chi Minh City, Vietnam	
	PS9D-03 Conducting UK clinical trials during and post the Covid-19 pandemic: impact, challenges and solutions Ava Lorenc, University Of Bristol	
	PS9D-04 Hibernation or rapid set-up: lessons from three pandemic trials Garry Meakin, Nottingham Clinical Trials Unit	
10:55-11:20	Refreshment Break, Exhibition & Poster Viewing	Studio One
11:20-12:20	Keynote Speaker: Designs for Randomised Phase III Clinical Trials How Have they Changed and How Might they Change? A Personal Perspective Professor Mahesh (Max) Parmar	Auditorium
12:20-12:45	Awards Ceremony & Conference Close  Matt Sydes, UCL & Katie Gillies, University of Aberdeen	Auditorium
13:00-16:00	Post-Conference Workshop 3.1 Statistical and practical aspects of the design and analysis of Multi-Arm Multi-Stage (MAMS) Platform Trials Babak Choodari-Oskooei, University College London Matt Sydes, University College London Max Parmar, University College London	Queens Suite 1
	Pre-Conference Workshop 3.2 eConsent in clinical trials Members of the UKTMN, TMRP and UKCRC CTU eConsent collaborative group	Queens Suite 2
	Pre-Conference Workshop 3.3  Triangulating evidence from observational data and randomized controlled trials for precision medicine  Queens Suite 3  Jack Bowden, University of Exeter  Beverley Shields, University of Exeter	

Educational Workshops are priced at £70 and places are still available. Visit the conference website ictmc.org/workshops to book now.
