2022

**6th International Clinical
Trials Methodology
Conference.
Harrogate, UK
3 - 6 October**

Workshop 2.2 Overview

W2.2: Clinical Trial Monitoring

Sharon Love, Victoria Yorke-Edwards, Lisa Fox

UKCRC Task and Finish Monitoring group is co-hosting this Clinical Trial Monitoring workshop. The aim is to discuss some tricky monitoring issues, discuss what we work we as a community might do and how we might start that work. This is a continuation of the monitoring community jointly deciding what the most important queries are and what we might usefully work on together.

The workshops will discuss:

- The advantages and disadvantages of different personnel planning and carrying out the trial monitoring
- Whether we need a framework for choosing good central metrics, what this might look like and how to start it
- Ideas on how to make clinical trial monitoring more efficient and how we might work towards more efficiency

Attend the workshop to help shape the future of monitoring.
